USP357 Compact Pistol Caliber 357 SIG

USP357 Compact Pistol with
Universal Tactical Light (UTL) and
magazine with extended floorplate

New for 1998, the Heckler & Koch USP357 Compact Pistol. Chambered for the powerful 357 SIG cartridge, the USP357 Compact delivers ballistics and terminal performance nearly equal to a .357 Magnum revolver—yet with a capacity of 13 rounds in a compact, lightweight, and easily concealed package. With standard USP features such as a polymer frame, nine available firing control modes, ambidextrous magazine release, accessory frame mounting grooves, and HK's Hostile Environment surface finish; the USP357 Compact brings to the table top performance, flexibility, and unique features for the uncompromising user.
